

MICROVIN ST-6535PF

KYNO TECHNOLOGY

KYNO™ is Stego's single-use glove system designed for skin comfort, dependable protection, and precision performance in demanding work environments

ESSENTIAL TECHNOLOGIES

POWDER-FREE, INDUSTRIAL GRADE DISPOSABLE VINYL GLOVES

Made from a soft-veryin vinyl formulation specially compounded to deliver an optimal combination of comfort, fit, flexibility, and heightened tactile sensitivity.

Provides reliable strength and durability for everyday protection. Ambidextrous, rolled cuff design with enhanced dexterity and food handling compliance.

FEATURES

- **KYNO Micro-Textured Surface** maintains reliable grip in damp, wet, and variable conditions
- **Flexible Conforming Material** provides a secure, comfortable fit that moves naturally with the hand
- **Liquid-Resistant Design** helps protect against liquid penetration and everyday exposure for dependable task performance
- **Ambidextrous Design** fits either hand, improving efficiency and convenience during frequent changes or bulk use
- **Enhanced Dexterity Design** provides improved control and excellent tear resistance
- **Latex-Free Design** reduces the risk of latex-related allergies
- **Thin Precision Construction** enables accurate handling of small parts and tools

STANDARDS

MATERIALS

Composition:	Vinyl (DEHP / DOP free)
Type:	Powder-Free, Non-Sterile
Cuff Style:	Beaded
Color:	Translucent White
Length:	9.5"

SIZES

	7	S
	8	M
	9	L
	10	XL
	11	2XL

APPLICATIONS

KYNO

TECHNOLOGY

ST-6535PF

MICROVIN

Maintains structural integrity against penetration by liquids, aerosols, and fine particulates across full exposure durations.

Designed to accommodate a wide range of hand sizes and shapes through stretch-calibrated material.

Engineered with micro-textured fingertips or palm zones that increase friction surface area.

Textured Fingertips Help Maintain Secure Handling and Improved Control

Smooth Finish Enhances Tactile Sensitivity For Precise Handling And Control

Maintains high material sensitivity across fingertips and contact zones, allowing precise control.

Formulated with non-irritating compounds and smooth internal surface to reduce friction, chafing, and chemical reactivity.

Optimized glove entry through low-resistance cuff design and internal surface treatment.

Flexible Vinyl Provides Comfortable Protection For Latex-Sensitive Everyday Use

Beaded Hem Supports Easy Donning And Helps Prevent Cuff Roll, Prevents Liquid Run-Off

ENGINEERED WITH STEGO TECHNOLOGIES

PERFORMANCE & COMPLIANCE

ST-6535 meets the requirements of applicable EN & ANSI/ISEA standards.

LIMITATION OF USE

Properly fitting safety gloves are crucial for safety. Poorly-fitting gloves cause irritation and hinder hand movements. Ensure they meet your required safety level and fit comfortably for optimal protection and functionality. The glove should not be worn in areas where there's a risk of entanglement or where there are moving parts. Avoid using gloves if there are signs of damage or defects.
